Department of Emergency Medicine, School of Medicine, Tabriz University of Medical Sciences, Tabriz, Iran

Received: 24 Feb. 2020, Accepted: 25 Feb. 2020, e-Published: 29 Feb. 2020

Welcome to the *Journal Research in Clinical Medicine*, Volume 8. 2020 marks a milestone in the history of this journal because it comes with some profound enhancements. The first and the most important change in our journal was that we eliminated the obligation made by the word “analytical” in the title and scope of our journal in attracting the articles. Moreover, by our new way of continuous publishing, fast publication of research papers is possible without delay. This allows to publish any article in the clinical domain as soon as possible. This will help us thrive in journal ranking. In our journal, we publish the articles which are accepted by our methodologist and epidemiologist. Also, we are now focusing on the fields of anesthesiology and critical care, emergency medicine, internal medicine, neurology and elderly. We will do our best to create a useful journal for our readers as it is expected to have audience from all over the world. I should be noted that this journal meets all the criteria of COPE and ICMJE. Our journal will collaborate with Aging Research Institute (TUOMS) (<https://aria.tbzmed.ac.ir/>), the emergency medicine research team (TUOMS), Faculty of Medicine (Ataturk University) (<https://atauni.edu.tr/en/tip-fakultesi>), and other research centers and also with our colleagues abroad, like Turkey, Slovakia, the United States, and the European Union. I believe that our editorial team will be supported by authors all around the world. We should be in search of articles that discuss new ideas and research directions,

### Author's Biosketch

Prof. Samad Shams Vahdati, is Associate Professor of emergency medicine, fellowship in neurovascular emergency. He is a Board Man of Emergency Medicine in Ministry of Health and Medical Education, Iran (2019- Ongoing). He is head of emergency medicine research team (2016- ongoing) and member of research strategic committee of medical faculty (2019- ongoing).

He has published 5 academic books regarding emergency and stroke and more than 170 articles in renowned medical journals. He is founder of 8 E-learning Programs in the field of stroke, first aid and ATLS.

original articles with a high impact of novelty. It requires a lot of effort and commitment from the editor to meet these goals. Many authors may not understand the fact that the role of the editor comes with a great responsibility rather than just power. The decisions may leave some of the authors unhappy, but the criteria of the journal must be met. I thank my associate and assistant editors, the entire editorial board, and reviewers for all their support. Together we will work towards making the journal a truly influential publication. Comments, suggestions and special issue proposals are always welcome. We will do our best.

### Conflict of Interest

The author declares that he has no competing interest.

### Ethical Approval

Not applicable.
